

TELUS EMR Mobile

Get Started Guide

Use this quick reference sheet to **get up and running** with the TELUS EMR Mobile app for your Med Access EMR **in 3 easy steps**.

STEP 1: Download the app

1. **Click here** to send a download text to your smartphone or tablet. You may pair more than 1 device.
2. On your device, **click on the link in your text message** to download the TELUS EMR Mobile app from the Apple or Google store.

STEP 2: Pair your device¹

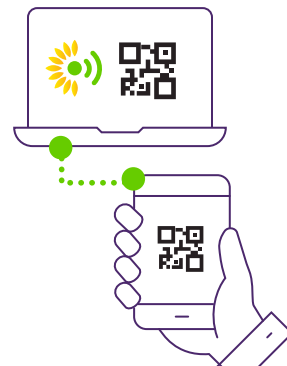

1. **Open the mobile app** and select Med Access EMR.
2. **Click on Mobile Settings** in the Med Access EMR Profile window.
3. **Select Pair Device** to begin the pairing process.
4. **Scan the code on the EMR screen** using the camera feature of your device.

USER TIP

To enable TELUS EMR Mobile at your clinic for the first time, the administrator must click on Manage Mobile Settings from the Maintenance menu in the EMR and accept the Terms & Conditions.

STEP 3: Start using the app

1. **Set your EMR Mobile app PIN.** You will need to use it each time you connect.
2. **Accept** the terms and conditions.

You are now ready to start using the TELUS EMR Mobile app.

- Review labs on the go
- Clearly see and process abnormal test results
- View patient charts
- Upload photos or access schedules
- Message nurses or staff
