Assyst Point of Sale

What's New?

Hyperlinks are now being used in the Update Features list. An underlined title in the What's New section will identify the text as a hyperlink. Clicking on the selected hyperlink will move the cursor to a section in the document for more detailed information.

Assyst Point of Sale

[Unipharm FTP Ordering](#) – Orders can now be transmitted using FTP instead of email.

[End of Day – No Sales but have Cash Receipts Posted](#)

[New fields](#) have been added to the export function of the Item Movement report.

Home Medical Equipment (HME)

No new items in this release.

Assyst-POS Enhancements

Unipharm FTP Ordering

Unipharm stores can now transmit their orders to Unipharm using the FTP service instead of email. This will require some changes in the setup of the vendor file and the TC-FTP application.

End of Day – No Sales but have Cash Receipts Posted

When sites have the Cash Receipts EOD flag checked and there are no sales for the day but some Cash Receipts are posted, there will now be an End of Day created with these entries.

Reporting

Item Movement - Within the export function new fields have been added. These fields are: Group Code, Group Description, Department Description and Family Description. An FTP to Vendor field has also been added.

Assyst-POS Application Changes

Accounts Receivable

The printed invoice (when set to Regular Portrait or Warehouse) will now align properly.

Reminders

Calendar View will now display the entry even if there is a blank line in the note/comment section.

Reporting

Top Bottom Movers –The Period to Date and Last 12 selection boxes (in the Periods to Include window) will now select and unselect properly.

Item Worksheet – When printing this report to screen (and using the zoom function to access the manual stock change window) any POS reports printed to screen afterwards (that has the zoom feature) will no longer display the manual stock change entry screen. The zoomed item will now display correctly in item maintenance.

Settings

On the Label Setup tab (under Settings | Miscellaneous) an alpha/numeric three digit tax description field has been added.

System

A 91/02 error will no longer display when running "file listing" from system logs.

Till Functions

The points balance (when redeeming points multiple times within the same transaction) will display correctly.

Assyst-HME Enhancements

No new items in this release.

Assyst-HME Application Changes

No minor changes in this release.
