## Influenza Immunization Drug Cards – Newfoundland and Labrador (2021/22)

With the introduction of our Influenza Immunization module, some significant changes must be made to the drug cards for the Influenza Immunization products your pharmacy uses.

The immunization formulary you have been provided may include drug records that already exist in your system; if this is the case, duplicate drug cards will be inserted in your system. Manual changes must be made to the correct drug card to ensure the correct product is selected when documenting and billing immunizations.

It is your responsibility to ensure the values in the Influenza drug cards are set as follows and that duplicate drug cards are managed appropriately.

### Identifying Duplicate Drug Records

1. Search for an Influenza immunization drug. If there are duplicate drugs in your system, multiple records will appear in the drug search screen.

In the example below, there are three drug records in the system associated with DIN 02420643.

The screenshot shows a software interface for searching drugs. At the top, there is a menu bar with options: File, Edit, Search, Utilities, NH, Cards, Session, Help. Below the menu is a toolbar with buttons: F3 - Patient, F5 - Drug, F7 - Doctor, F9 - Workflow, F11 - Drop-off, F12 - New Rx, and Alt+X - Start. The main search area has a 'Search Criteria' section with a text box containing '02420643'. To the right of the text box are buttons for 'Edit', 'Insert', 'Cancel', and 'Copy Drug'. Further right, there is a 'Searching By' dropdown set to 'DIN' and a 'Records Found' indicator showing '3'. Below the search area is an 'Advanced Search' section with radio buttons for 'Only Active', 'Only InActive', and 'All' (selected). There are also input fields for 'Generic Name', 'Drug Group', 'Drug Price Group', 'Form', 'Manuf', and 'Sched', along with a 'Show All Drug Pack Tiers' checkbox. At the bottom, a table displays the search results:

#	BrandName	GenericName	Strength	Pack Size	DIN	Form	Manufacturer	On Hand
1	Fluzone Quadrivalent		15mcg	5	02420643	ML (Suspe SAO (Sanofi Pasteur Limited)		
2	Fluzone Quadrivalent		15mcg	0.5	02420643	ML (Prefill SAO (Sanofi Pasteur Limited)		
3	Fluzone Quadrivalent Influenza Vaccine (GOVN'T)		15mcg	1	02420643	ML (Syring SAO (Sanofi Pasteur Limited)		

- Call up each drug record that **does not** have the correct pack size and uncheck the **Pack Active** flag.

General	Ordering	UPCs	Plans	Usage	Old Costs	Counselling	Kroll Care
Packs (1)	(F2) (Ins) (Del)	Pack Size	1	<input checked="" type="checkbox"/> Pack Active	<input type="checkbox"/> Front Store		
		Quick Code		<input type="checkbox"/> Only allow manual price changes			
		Purchase	\$0.00	Default Vendor	Default (McKesson)		

- When all duplicate drug records have been inactivated, these drug records will not appear in the drug search results unless you perform an advanced search for all packs; inactive drug packs will appear in red text.

- **Purchase:** \$0.00
- **NL Net:** \$13.00
- **NL Lowest:** \$13.00

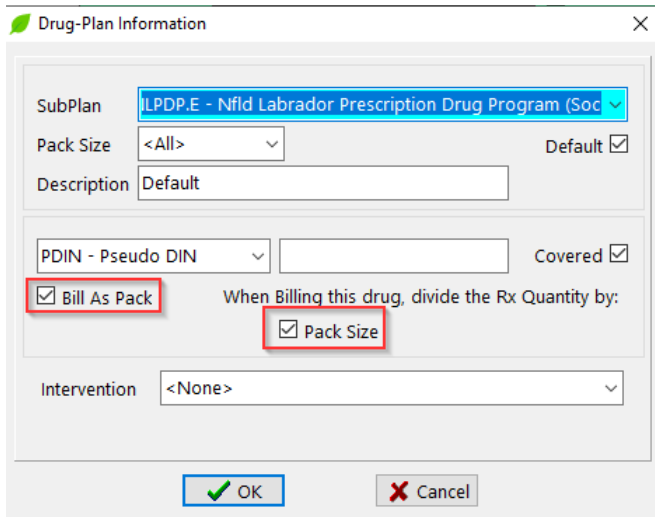

## Plans Tab

- Ensure the NLPDP subplan is inserted in the drug record.

Plan Name	PackSize	Default	Covered	Pseudo DIN	Description	Bill As Pack
NLPDP.E - Nfld Labrador Prescription Drug Program		Yes	Yes		Default	Yes
NLPDP.N - Nfld Labrador Prescription Drug Program		Yes	Yes		Default	Yes
NLPDP.L - Nfld Labrador Prescription Drug Program		Yes	Yes		Default	Yes

Double-click the subplan. The **Drug-Plan Information** form will appear. Ensure the values for the subplan are as follows:

- **Bill as Pack:** Enabled
- **When Billing this drug, divide the Rx Quantity by:** Pack size

The screenshot shows the 'Drug-Plan Information' dialog box with the following settings:

- SubPlan: NLPDP.E - Nfld Labrador Prescription Drug Program (Social)
- Pack Size: <All>
- Description: Default
- PDIN - Pseudo DIN: PDIN - Pseudo DIN
- Covered:
- Bill As Pack:  (highlighted with a red box)
- When Billing this drug, divide the Rx Quantity by: Pack Size (highlighted with a red box)
- Intervention: <None>

The following SubPlans can be set:

- NLPDP.E - Nfld Labrador Prescription Drug Program (Social)
- NLPDP.N - Nfld Labrador Prescription Drug Program (Seniors)
- NLPDP.L - Nfld Labrador Prescription Drug Program (Low Income)

## Fluzone Quadrivalent - Pack Size 5

Before you begin setting up the drug card, ensure you have inactivated all duplicate drug packs in your system. See the [Identifying Duplicate Drug Records](#) section for more information.
