

Switch to Ubik

Smooth migration of your pharmacy solution with the support of a multidisciplinary team.

Benefit from a transition process adapted to the reality of your pharmacy. We are by your side before, during and after the implementation to help you increase efficiency and get the most out of your new Ubik pharmacy management solution.

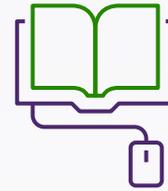

Defining the transition process.

A technology analyst and a training specialist will assess your operations and recommend a process that works for your pharmacy.

Preparing for migration.

Get recommendations on how to prepare your team. We will analyze your data and coordinate the technical aspects using a replica of your work environment in our systems.

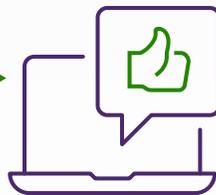

Training your team.

A training specialist will review the learning requirements with your team and ensure that everyone is up to speed. Additional individual sessions can be arranged with the members of your team to supplement the training.

Feedback from a migration expert.

Get daily feedback from an expert who will answer all your questions and share tips on how to simplify the transition process.

Ubik at your pharmacy.

Ubik is now installed at your pharmacy and your team has been trained. You are now ready to use a modern and collaborative solution that integrates the management of prescriptions and clinical services in a single location.

Personalized follow-up and ongoing support.

After implementation, we will follow up to make sure that the configuration is suited to your pharmacy's workflow. At any time, use telephone or chat support to get quick answers to your questions.

325

pharmacies in Quebec have chosen Ubik.

225+

migrations with a field-proven methodology.

185+

cumulative years of field experience.
