## Influenza Immunization Drug Cards – Alberta (2021/22)

With the introduction of our Influenza Immunization module, some significant changes must be made to the drug cards for the Influenza Immunization products your pharmacy uses.

The immunization formulary you have been provided may include drug records that already exist in your system; if this is the case, duplicate drug cards will be inserted in your system. Manual changes must be made to the correct drug card to ensure the correct product is selected when documenting and billing immunizations.

It is your responsibility to ensure the values in the Influenza drug cards are set as follows and that duplicate drug cards are managed appropriately.

### Identifying Duplicate Drug Records

1. Search for an Influenza immunization drug. If there are duplicate drugs in your system, multiple records will appear in the drug search screen.

In the example below, there are three drug records in the system associated with DIN 02420643.

The screenshot shows a search interface with the following details:

- Search Criteria:** Mixture  Edit  Ins Insert  Searching By **DIN**
- Search Results:** 02420643 Cancel  Copy Drug   Advanced **3 Records Found**
- Advanced Search:**
  - Show Packs:  Only Active,  Only InActive,  All
  - Generic Name:
  - Drug Group:
  - Drug Price Group:
  - Form:
  - Manuf:
  - Sched:
  - Show All Drug Pack Tiers
- Table of Results:**

#	BrandName	GenericName	Strength	Pack Size	DIN	Form	Manufacturer	On Hand
1	Fluzone Quadrivalent		15mcg	5	02420643	ML (Suspe SAO (Sanofi Pasteur Limited)		
2	Fluzone Quadrivalent		15mcg	0.5	02420643	ML (Prefilli SAO (Sanofi Pasteur Limited)		
3	Fluzone Quadrivalent Influenza Vaccine (GOVN'T)		15mcg	1	02420643	ML (Syring SAO (Sanofi Pasteur Limited)		

- Call up each drug record that **does not** have the correct pack size and uncheck the **Pack Active** flag.

General	Ordering	UPCs	Plans	Usage	Old Costs	Counselling	Kroll Care
Packs (1)	(F2) (Ins) (Del)	Pack Size	1	<input checked="" type="checkbox"/> Pack Active	<input type="checkbox"/> Front Store		
		Quick Code		<input type="checkbox"/> Only allow manual price changes			
		Purchase	\$0.00	Default Vendor	Default (McKesson)		

- When all duplicate drug records have been inactivated, these drug records will not appear in the drug search results unless you perform an advanced search for all packs; inactive drug packs will appear in red text.

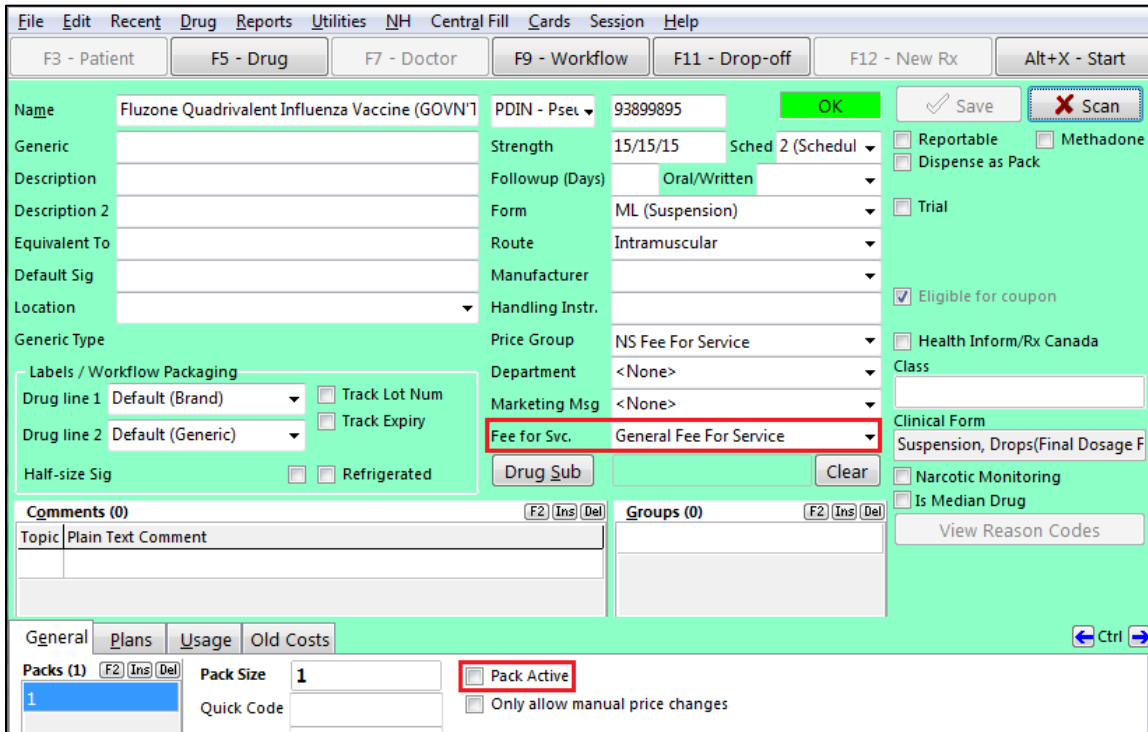

File	Edit	Recent	Search	Utilities	NH	Cards	Session	Help
F3 - Patient	F5 - Drug	F7 - Doctor	F9 - Workflow	F11 - Drop-off	F12 - New Rx	Alt+X - Start		
Search Criteria		Mixture <input type="checkbox"/>	<input checked="" type="checkbox"/> Edit	Ins Insert	Searching By <b>DIN</b>			
02420643		<input checked="" type="checkbox"/> Cancel	Copy Drug	<input checked="" type="checkbox"/> Advanced	<b>3</b> Records Found			
<b>Advanced Search</b>		Generic Name		Form				
Show Packs		Drug Group		Manuf				
<input type="radio"/> Only Active		Drug Price Group		Sched	<input checked="" type="checkbox"/> Show All Drug Pack Tiers			
<input type="radio"/> Only InActive								
<input checked="" type="radio"/> All								
#	BrandName	GenericName	Strength	Pack Size	DIN	Form	Manufacturer	On Hand
1	Fluzone Quadrivalent		15mcg	5	02420643	ML (Suspe	SAO (Sanofi Pasteur Limited)	
2	Fluzone Quadrivalent		15mcg	0.5	02420643	ML (Prefill	SAO (Sanofi Pasteur Limited)	
3	Fluzone Quadrivalent Influenza Vaccine (GOV'N'T)		15mcg	1	02420643	ML (Syring	SAO (Sanofi Pasteur Limited)	

- Because last year's immunization products are recorded under a pseudo-DIN, you should also search for each of this year's products by drug name (not by DIN) and inactivate the drug cards for last year's products.

In the example below, there are two Fluviral drug records in the system. This year's product uses the correct DIN and last year's product is recorded under a pseudo-DIN.

File	Edit	Recent	Search	Utilities	NH	Cards	Session	Help
F3 - Patient	F5 - Drug	F7 - Doctor	F9 - Workflow	F11 - Drop-off	F12 - Return to Rx	Alt+X - Start

2	Fluviral Influenza Vaccine (Gov't)	Haemagglutinin-Strain A(H1N1)/A(H3N2)/B	15/15/15mcg/0.5ml	1	66124765	ML (Su	NVD (Novartis Vaccines and Diagn	

- Call up the record that uses the pseudo-DIN and inactivate it. Note that drug records that use a pseudo-DIN will show **General Fee For Service** in the **Fee for Svc.** field.

The screenshot shows a medical software interface with a menu bar (File, Edit, Recent, Drug, Reports, Utilities, NH, Central Fill, Cards, Session, Help) and a toolbar with buttons for F3 - Patient, F5 - Drug, F7 - Doctor, F9 - Workflow, F11 - Drop-off, F12 - New Rx, and Alt+X - Start. The main window displays drug record details for 'Fluzone Quadrivalent Influenza Vaccine (GOVN1)'. The 'PDIN - Pseu' field is set to '93899895'. The 'Price Group' is 'NS Fee For Service'. The 'Fee for Svc.' field is highlighted with a red box and set to 'General Fee For Service'. Other fields include 'Strength' (15/15/15), 'Sched' (2 (Schedul)), 'Form' (ML (Suspension)), 'Route' (Intramuscular), and 'Manufacturer'. The 'Pack Size' is set to '1' and the 'Pack Active' checkbox is checked. The 'Pack Active' checkbox is also highlighted with a red box.

## Fluzone High Dose Quadrivalent - Pack Size 0.5

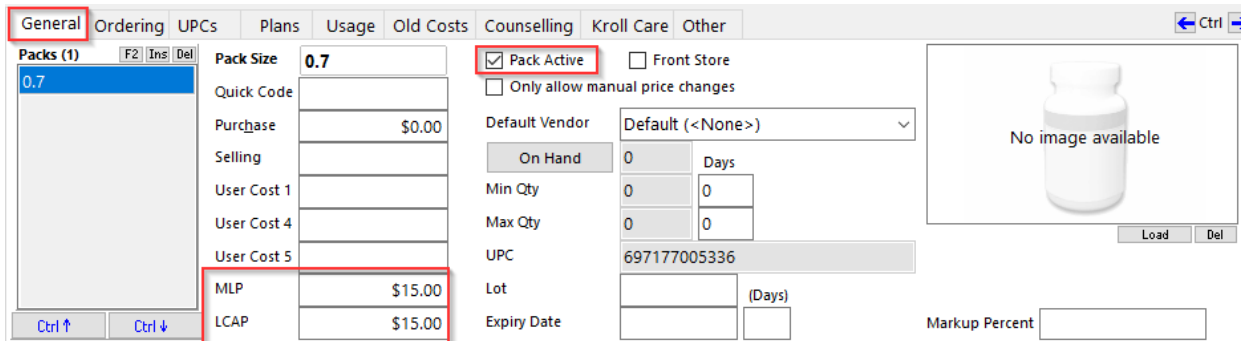

Before you begin setting up the drug card, ensure you have inactivated all duplicate drug packs in your system. See the [Identifying Duplicate Drug Records](#) section for more information.

## Plans Tab

- Ensure ABPHAP subplan is inserted in the drug record with the unique Pseudo DIN

General Ordering UPCs **Plans** Usage Old Costs Counselling Kroll Care Other

Plans (1) [F2] [Ins] [Del]

Plan Name	PackSize	Default	Covered	Pseudo DIN	Description	Bill As Pack
ABPHAP - Alberta Public Health Activities Program		Yes	Yes	05666650	5 years of age and older	Yes

**NOTE:** Make sure to delete previous ABPHAP subplan entries from the drug record so that old Pseudo DIN's will not populate while performing an Immunization

Double-click the subplan. The **Drug-Plan Information** form will appear. Ensure the values for the subplan are as follows:

- **Bill as Pack:** Enabled
- **When Billing this drug, divide the Rx Quantity by:** Pack Size

**Drug-Plan Information** form with the 'Description' field set to **5 years of age and older**.
